Flow chart describing the Special Provisions processes

Assessment task due dates

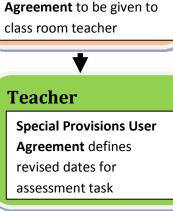

All students (including students with a Special Provisions User Agreement) submit on time. Students with a special provision may submit task on revised due date. Copy of Special Provisions User Agreement with task.

VARIATIONS to DUE DATES

HoDs (not teachers) can vary conditions for pieces of assessment for **whole cohorts**. This would not require special provision user agreements. It is not appropriate for a single class to receive a change.

<u>Course Completion – not part of Special Provisions BUT still a QSA requirement</u>

Some students will submit late tasks that cannot be used for "level of achievement" decisions but are used to show "completion of a course of study". For senior students to remain in good standing, all assessment tasks must be completed.
